in fact, value for value, it is one of the cheapest drinks and one of the most economical foods that can be obtained. A cup of hot Boyril costs less than a drink of whisky, and while giving a more Home, genuine and lasting warmth than the latter, contains, in addition, the nutritive principles of beef worth many times its cost.

Old fashioned beef teas and meat extracts, whether known as such, or disguised under more pretentions modern name contain none of the NUTRITIVE properties of beef. Baron Liebig himself admitted this fact + there is not a doctor to day disputes it. Used as a nourishment. Meat Extract is probably the most ex pensive article one can buy. Since the issue of our last circular dated the 27th bitimo, our Yarn Market has ruled very firm. Continued favourable news from the consuming districts, advices of an excited market and advancing rates in India, combined with a brisk local and speculative general demand, have find the effect of further strengthening our market, which now closes very firm with an advance in rates from lifty cents to two dollars per bale on last mail's prices ; business reported during the fortilebt being very considerable both for 'Spot us well as for 'To arrive.' No sales are reported in No. Co.-No. 2s are in small request at last mail's quotations.-A brisk enquiry for No. 10s has been experienced throughout the whole of the fortnight, and soveral selected and favourite threads have been taken up at an advance of about \$1 to 82 per bale, and a most satisfactory business has been passing with considerable settlements both for spot and to arrive. -The prices of Nos. 12s and 16s have remained steady with a slight variation on previous quotations, -- Owing to greater demand, firm ess of holders, and the subsequent scarceness of suitable threads of No. 20s, prices of such qualities have advanced from fifty cents to a dollar por bale. Sales during the pant fortnight comprise about 50 Bales of No. 8, -8,290 Bales of No. 10s,—1,100 Bales of No. 12s, —750 Bales of No. 10s.—and 3,550 Bales of No. 20s,-in all about 13,800 Bales. #### Resignation of a Victorian Minister.

Molbourne, February 12 .- In the Logisaltive Assembly to-day, the Deputy-Speaker announced the resignation of Mr McKenzie as member for Anglesey. Mr McKenz'e's intention, in view of the adverse finding of the Select Committee in regard to the charges made against him, is to give his constituents an opportunity to review his actions.

Mr Toucher wanted to discuss the matter, but the Deputy-Speaker ruled that no debate was permissible.

'That's right,' interjected Mr Maloney, excitedly; 'cover it up.'

There was some disorder, but eventually FRONTIER the Speaker got a chance to call upon Mr Maloney to withdraw.

Mr Maloney refused to obey the Chair. Sir Alex. Peacock coaxed him, and the Premier also made an appeal to the obstinate member. Finally, Mr Maloney rose, and said that, in withdrawing, he did not wish that there should be any

misunderstanding. The Premier : Then I must ask the hon. member to withdraw.

Mr Maloney : I have withdrawn as much as I am going to. I won't do any more for you or anyone like you. So you can do what you like. (Cries of 'Chair,' and renewed disorder).

The Treasurer: The hou, member withdraw his remarks in a most insulting way. Mr Maloney : You are a liar, Mr Shiels,

Sir Alexander Peacock stated to-day that he does not intend to attack the Government in regard to the McKenzie scandal, as it was entirely caused by the late Minister for Lands' personal action, for which the Government was not responsible.

EDITORIAL COMMENT.

The Sections of the Public Health and Building Ordinance (Sections 46 and | An Enterprising Move. CROWDING.

154), which are to be enforced on and from 1st May next, con min minute detailed provisions regulating the numbers who will be allowed to reside in domestic buildings, and detail ing the requirements for a habitable cubicle. Health District No. 5 is the section of the city to be first dealt with, and, as we mentioned the other day, Death of Mr H. D. Smith. the Sanitary Authority could not have hit upon a district in which the reforms aimed at are more absolutely necessary than here. The district, as may be seen by reference to the local map, comprises some of the most densely crowded and insanitary blocks of the Chinese quarter and has an evil reputation for the large numbers of plague cases which it has produced for many years past. H.E. the Governor is to be warmly congratulated upon the inauguration of this much-needed crusade, and the Sanitary Department will rapidly become one of the most important branches of the service in this Colony. The Executive have been wise in selecting one district to begin with, as the necessarily slow transformation of China-town slums into healthy residential areas will furnish labour for one or two decades; and the duty of prosecuting this good work, though begun in the administra-

tion of Sir Henry Blake, will continue to tax the energy and discretion of many of his successors. porary raises an interesting point in to-day's SANITARY

election of two public representatives on the Sanitary Board. It suggests that there may be a conflict of races at the election-Europeans versus Asiatics. We venture to think our contemporary puts a misconstruction on the clauses of the new Act governing the election of these members. It is stated that these two members shall be elected by such ratepayers as are included in the Special and Common Jury Lists and also by such ratepayers as are exempt from serving on juries on account of their professional avocations. If our contentporary will look at the list of jurors, and take into consideration the few that are exempt, he will see that there need be no fearoi a conflict between the European and Asiatic electors. The two elected members, in fact, are the representatives the European ratepayers, and neither in the electing body nor in the Board as it will be finally constituted need there be any racial conflict such as our morning contemporary predicates. As the principle fought for by the popular representatives in the distilled in SCOTLAND, of great age, very last Board has been conceded by the difficulty in obtaining two good men to represent the Community, and, if we might venture to suggest two names no better public representatives could be found than Mr H. E. Pollock, K.C., and Mr A. Shelton Hooper. If these would be a guarantee that the views of the community would be fairly efficiently expressed at the meetings of

Suicide at Shanghai.

The N.C. Daily News of the 12th inst. states :- There seems little doubt that Mr Peter Bogomoloff, whose death was announced in yesterday's issue, committed suicide. On the morning of the 9th instant, deceased wrote to a friend stating his intention of making away with himself, and although the friend hastened round to deceased's rooms, at 19 Szechuen Road, he was too late, as at issue with regard to the p.m. deceased was found hanging by strap from a beam in his room. The great majority of these vessels are of the most modern construction, and are provided with all the latest technical improvements. In addition to these 42 vessels there are in the Pacific a certain number of Russian steamers and small

torpedo-boats. The Currency of China. MrE. S. Little wrote to the N.-O. The wind was very tricky and squally, mostly from the south. Alannah got the best of the start, crossing the line almost immediately after gunfire, with most of the rest of the fleet fairly level a few lengths astern. Changes in the position of the boats were frequent in the course of the race, but Dione's superiority to the rest, which was soon established, took her over the line at the end considerably shead of her rivals, though she was unable to save her time on Maid Marian, Payne, Erica and Alannah, who finished on the handicap in the order given. NEW STEAM PILOT BOAT.

Successful Trial of the 'A. M. Bisbee.

Over waves, just sufficiently 'choppy to give a smack of severity to the test, the S. S. A. M. Bisbee steamed the measured mile in Kowloon Bay on Saturday in completion of her trials, prior to being handed over to her owners, the Shanghai Pilot Association. The run was most successful, giving a mean speed in two journeys of 10? knots, a margin of 12 knots in improvement of the contract craft is the first steam-pilot boat built for Chinese waters. Christened after the late Harbourmaster of the 'model' port, she willaccommodate thiry-three pilots very comfortably. Her cabin suggests the case and luxury of a mail steamer or a pleasure yacht; it is fitted with every requisite adjunct, bathrooms, a room for donning and doffing oilskins, etc, and it will be a welcome waiting room for the men lying out of port in expectation of the incoming oraft to be guided by them to safe anchorage, as it will be no less a boon for those who have got their 'pidgin' through. This Saloon is in the forepart, the crew's quarters being aft. 130 ft. long, by 24 ft. 6 in. beam, and 13 ft. depth, the A. M.
